

AGRICULTURAL TENDER DOCUMENT: FERTILIZER AND SOIL AMENDMENTS

1. GENERAL GUIDELINES

This tender outlines procurement requirements for agricultural inputs for the crop cycle.

2. TECHNICAL CHEMICAL SPECIFICATIONS

2.1 Urea Chemical Specifications:

The supplier must guarantee standard agricultural-grade granulated urea. The nitrogen percentage requirement is strictly set to a minimum of 46.0% dry weight. Any shipment falling below 46.0% nitrogen will be rejected. Moisture content must not exceed 0.5%.

2.2 Superphosphate Specifications:

Phosphorus pentoxide (P_2O_5) must represent at least 18.0% of the fertilizer by weight. Granule size must be between 1mm and 4mm.

3. LOGISTICS AND PACKAGING

Fertilizers must be packaged in double-layered 50kg bags. Delivery must occur within 45 days of award.
